Museum Special Revenue

### Strategy Purpose and Description

The Museum Special Revenue Fund is intended to augment the general fund appropriation through revenues approved by DFM and Council and contributions given directly to the museum. This fund provides for direct support of public museum activities and programs. The care and management of the museum's art and history collections, exhibition rentals and shipping, the care and accessibility of the photoarchive collection, and materials and equipment for school programs and museum classes and workshops are partially supported through special revenues.

### Changes and Key Initiatives

It is anticipated that as much as \$200,000 in accumulated Special Revenue funds may be used in FY06. These monies will largely be used toward exhibition rentals and installation, miscellaneous education programs, and supplies and equipment for the photoarchives and collections sections.
